

# Resizing and Exporting an Image Using Photoshop

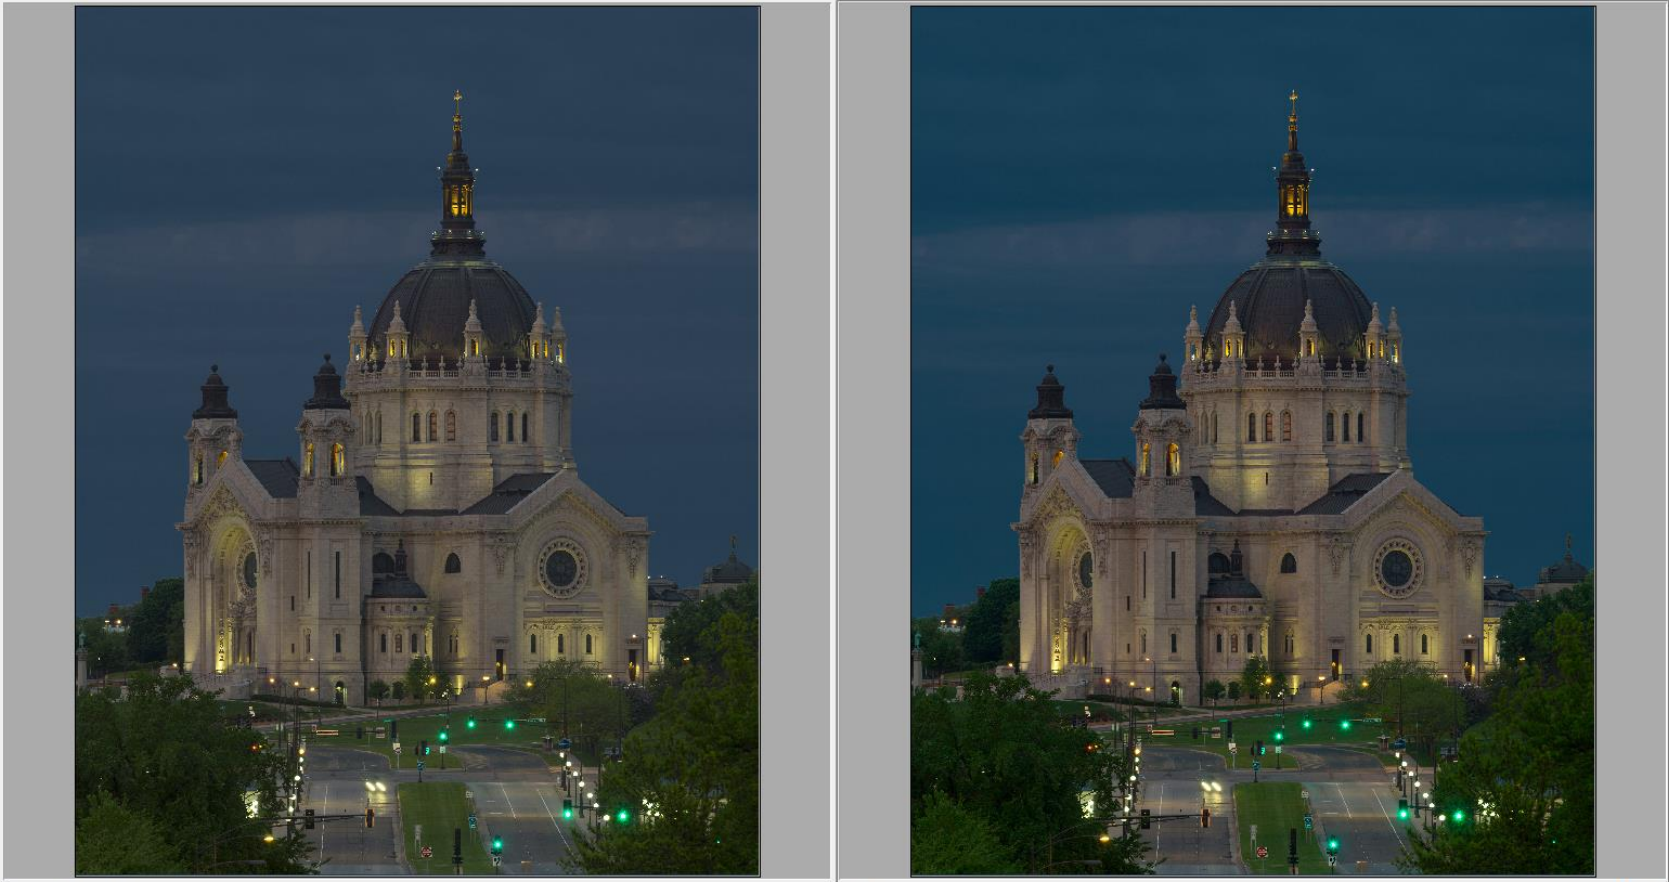

Exporting an image creates a copy of the image without damaging the original.

Save for Web (16.5%)

Tip: Use File > Export > Export As... or right click on a layer for a faster way to export assets [Learn More](#)

make sure the lock is in the locked position keeping the aspect ratio

Image Size

W: 1006 px Percent: 26.27 %

H: 1280 px Quality: Bicubic

Animation

Looping Options: Once

1 of 1

For this image the longest dimension is the height. For WWPC salon images change that to 1280.

After changing the pixel dimensions you can reduce the Quality if you also need to reduce the size in kilobytes. The N4C contests require a maximum of 500 KB.

File name: Realistic - St. Paul Cathedral - 245.jpg

Format: Images Only

Settings: Default Settings

Slices: All Slices

Buttons: Save, Cancel

In the pop up dialog you can navigate to where you want to save the file and can give it a name according to the naming convention we use.

When satisfied, click Save. This saves a copy and closes the Save for Web window.
